Kazmeier Quality Chicks

Eggs are cheap now. Don't forget, however, that the same factors now responsible for cheap eggs will cause very high egg prices this Fall and Winter of 1932.

Cull your hens closely and reinvest in baby chicks direct from trap-nested hens.

Pullets raised from Kazmeier Certified grade chicks will lay from 40 to 100 eggs each in a year more than pullets from ordinary baby chicks. Every nest on my farm is a trap-nest. No guess work here.

Write for low prices on quality chicks.

Triplex shatter-proof glass windshield has saved many lives in collisions

EVERY new Ford is equipped with a Triplex shatterproof windshield. This is made so that the glass will not fly or splinter under the hardest impact. It has saved many lives and prevented injuries in many automobile collisions.

This shatter-proof glass windshield is just one of many features that make the new Ford a value far above the price. Others are the silent, fully enclosed fourwheel brakes, sturdy steel body construction, four Houdaille double-acting hydraulic shock absorbers, more than twenty ball and roller bearings, extensive use of fine steel forgings, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, Rustless Steel, and unusual accuracy in manufacturing.

In addition, you save many dollars because of low first cost of the new Ford, low cost of operation and up-keep, and low yearly depreciation.

F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra

at small cost. You can purchase a Ford on economical terms through

the Authorised Ford Finance Plans of the Universal Credit Company.

Gypsy Simon SMITH

... recommends ASPIR-MINT "I was suffering from a bad Cold....

Dr. Miles' Aspir-Mint relieved Me."

These two sentences are from a letter sent to us by Gypsy Simon Smith. Mr. Smith spends his public life

in the germ-laden atmosphere of crowds in hall, church or tabernacle. He goes from an overheated meeting place into the frigid outer air spirtually uplifted, but physically exhausted.

His profession demands that he do the very things that he should not do if he wants to avoid catching Cold. He is in position to speak with authority on the subject.

If you have a Cold, or if you suffer from Headache, Neuralgia, Neuritis, Rheumatism, Sciatica,

Lumbago, Toothache, Backache, Muscular Pains, Periodic Pains, Dr. Miles' Aspir-Mint will bring you relief. At your drug Store-15c and 25c.

KITCHEN LORE

JANE ROCERS

THE wise housewife will take care to serve salads frequently during the cold, winter months. It is during this period of the year that fresh green vegetables are expensive and none too plentiful, and salads help to take their place by providing the family with an ap-

The more substantial salads are usually most enjoyed when served as the main dish. A lighter salad, for instance one in which grapefruit or oranges are the chief ingredient, is preferable when the main dish is a roast or fowl, the tartness of the citrus fruits offering a refreshing contrast in flavor. In preparing French dressing for citrus or green salads, orange juice may be used as a suave substitute for the vinegar.

Florida French Dressing Combine two tablespoons sugar, one-half teaspoon salt, and dash of paprika with juice of two oranges and juice of one lemon. Mix with three-fourths cup olive oil. Beat with egg beater just before serving.

CRY FOR IT-

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. This pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria have him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's, signature.

Don't Follow the Crowd

Whenever prices start to climb, Most people think it's buying time; And they seldom want to sell Until prices fall pell-mell. This rule we would suggest to you: Never follow the crowd on through. The time to buy is on the low, When the crowd is buying you go slow. The HONDO STATE BANK has watched the trend— You cannot on the crowd depend.

(Copr. 1927 Adam Brown Hunter) HONDO STATE BANK

HONDO, TEXAS, MARCH 27, 1931

TEXAS AND TEXANS. By Will H. Mayes "All Texans for Ail Texas"

Centennial Committee Active The executive committee of the Texas Centennial Commission, at a meeting recently held in Austin, decided that after nearly five years of apparent inactivity it should get busy immediately in preparation for the Centennial celebration, now only five years away. The time in which to build up a sentiment strong enough to assure the success of the undertaking, to secure the necessary funds and to prepare for a great exposition or celebration commensurate with the greatness of Texas is so short that every week of delay from now on will to that extent handicap the movement.

While many of the most progressive citizens of Texas already appreciate fully the importance and the magnitude of the proposed celebration it has to be admitted that the great masses are not yet Centennialminded; that is, they have not as yet given it the studied consideration that will insure their fullest support. From now until 1936 a great educational campaign is needed to create a sentiment that will make every Tex an feel it both a pleasure and a duty to do all in his power to commemorate fittingly the heroic sacrifices of early Texans, to show to the world in a way never to be forgotten the marvelous progress of the first century of Texas development, and to create a State-wide pride and enthu siasm that will make the next century of growth the most notable in the history of countries.

This can all be done, but it wil' require well-directed plans, ceaseless and unified energy and State-wide coordinated effort. No opportunity should be lost to present the Centennial movement to every organization in the State and at every meeting at which Texans gather in numbers, as well as through the press of the State, of the Nation and of foreign ing it one of the best playgrounds in countries. The next five or six years, the State, that city is anxious for should be made Texas' busiest years, more parks and has started plans for with efforts centered around the Cen- one or more during the coming year tennial anniversary.

The committee has asked the legislature to submit a constitutional amendment to a vote of the people of Texas authorizing a legislative appropriation for the celebration, which it From The Owl. sected will be matched by Federal funds and supplemented by private contributions. With this done, tries will participate in the anniver, musical program. Numbers rendered sary which will assume a National and somewhat international character and importance. Under the prolegislative appropriations for exposi- Edward Armstrong, who played a tions to this one celebration, the legislature will fix the places, time and character of the celebration or good time and are looking forward

Local Celebrations

In line with the proposed State- Uvalde. wide Centennial, a number of places that are now in or reaching the centennary of their founding are now planning suitable commemorative expositions, Bastrop being the first of these to make any definite announcement, this being its anniversary year. If other places would follow Bastrop's lead as they round out a hundred years of local history, the patriotic appeal should draw large crowds to colorful celebrations and result in much good to the towns and counties in which they are held These local celebrations would also afford fine opportunities for creating the spirit and interest needed for the success of the Texas Centennial in 1936, which should be ready to tie up closely with every local centennary movement.

Business Activities Increase In every progressive city and town in Texas a decided increase in business activities is now evident. At San Antonio a leading firm had closed a contract for a 20 years' lease of a store building for \$1,300,000; a manufacturing corporation has leased a 10-acre site for a \$500,000 plant; a garage has been leased for 10 years for \$51,900; a handkerchief factory to employ several hundred workers is soon to be opened; and sales of business, residence and country properties are remindful of days of most active real estate deals.

These are items culled from the news of a single day. Other places are showing proportionate progress. On the same date it was noticed that Carrizo Springs has completed an \$85,000 high school building; Luling and Hondo are building modern hospitals; Beeville plans to spend \$125, 000 in school buildings; Del Rio is building a \$150,000 movie house; Corsicana and Falfurrias are planning new hotels; Hearne is building a Masonic temple; Hubbard is modernizing its water system; Rockdale has a new Masonic building into which the Rockdale Reporter has moved. But, why go on? All over Texas there is business "a-plenty" for those

who go after it in the right way. Want Mineral Survey
The counties of Llano, Burnet, Blanco, Gillespie, Mason, San Saba and Lampasas are making an effort to secure a complete geological sur-

The Anvil Herald vey and will ask the legislature for * \$50,000 for that purpose. These and . other adjacent counties are rich in as is being sought would do much toassist in developing their latent resources.

Prize Stock Money

Miss Pauline Roberts, the 15-yearold Brady school girl who sold her prize winning Hereford at the Southwestern Fat Stock Show at \$2.00 a pound is no doubt thoroughly convinced that it pays to raise the best cattle. An Aberdeen-Angus steer shown by the Texas A. & M. College was sold for \$1.05 a pound, and the champion club lamb, shown by Cecil Moore of Eldorado, sold for \$2.50 a

Want More Dairy Cows

The Dairy Finance Corporation of the Mexia Chamber of Commerce which is attempting to assist farmers in building up profitable dairy herds, has disposed of 150 cows in the Mexia section and has applications pending for 100 more. A condition on which the cows are sold on time to farmers day.

Mrs. Annie Lessing and daughter.

Mrs. Annie Lessing and daughter.

Making Poultry Pay The past few months have been hard on the poultry industry in Texas, but growers who have followed the best methods and have kept records have been making money. At Uvalde nine demonstrators with combined flocks of 2,575 hens produced eggs through February at an average cost of 9 cents a dozen, selling them for 11 cents. The hens were kept on full feed of laying mash and grain, most of them being given home-mixed rations. One poultryman with 310 White Leghorns produced eggs at a feed cost of 5 cents a dozen using home-mixed ration ,some of which was also home-raised. It pays to do right whatever is done at all. Winning Corn Prizes

Gonzales is indebted to a few of its farm boys for its reputation as a carried home 90 per cent of the corn prizes awarded at the Fort Worth Fat Stock Show and won first prize on grain sorghums. The same boys won numerous prizes last fall at shows at Beaumont, Houston, Dallas and several small fairs. Texas boys trained in farm clubs by county farm agents are showing the old farmers how to succeed in farming.

Freedom of the Press Texas newspaper hats should be lifted to Mrs. Lee J. Rountree, member of the legislature and editor of the Byran Eagle, for winning a fight for an open door policy in legislative committee meetings. The public business of the State should be publicly conducted even if it does at times prove embarrassing to some public officials. The people who pay the bills have the right to know just what is going on.

Wants More Parks Since Corsicana has improved its one eleven acre park and equipped it with modern facilities for play, mak-

ACID STOMACH

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which will neutralize acid. The best corrective is Phillips Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods once you learn how quickly this method acts. Please let it show you—now.

Be sure to get the genuine. "Milk of Magnesia" has been the U.S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875. ***************

FAVORS A GRADUATED LAND TAX.

Crystal City.

Feb. 18, 1931.

Dear Davis: I was very much impressed by an article by P. A. Spain in the last issue of FARMING, advocating a graduated land tax. From many years of experience and observation have about come to the conclusion that something has to be done, and "Muy Pronto", to remedy the existing conditions, or this country is "riding for a fall." To be more specific, will cite you to some of the facts that cannot

When I first came to this "neck of tors to see that these things are the woods" everything was in a raw state,-undeveloped. The little farmers came in, put down wells and went to work clearing off the brush and putting in crops. Everything went well for a few years and they made a little money, but it did not last long. The big fellows rushed in, bought up large quantities of farming land and went to work on a big scale, putting in a thousand acres or more, using machinery and Mexicans. The result-over production and the little man operating at a loss. The big producer is satisfied if he can make 5 or 10 cents on a crate of onions or spinach while the little fellow loses out. The same conditions apply to grazing lands. Many of these big capitalists hunting a place stocked with fish will make a steady to avoid income tax are buying up source of income for the owners. all the land they can get their hands Most of them could be used for on and hold for speculation and what will be the result?-The little cow irrigating the rich valleys. The water man and farmer will be out of a job and working for wages. I can see only one solution to the problem

J. F. Harris, Sr.

BREAKING THE CONSUMER'S BACK.

Every time you purchase a household commodity at the corner grocery, you more than likely pay from three to four different taxes. Assessture; the tax upon the manufactured article has been included in the cost to the wholesaler; the wholesaler has written into his prices the taxes assessed against himself; and the retailer has added his own tax costs to all those preceding. Finally, the conwas an increase of 122 per cent in . sumer pays the sum total of all these taxes in the ultimate cost of the commodity, which, of course, includes whatever tariff duties there may be on the product.

This shifting of tax burdens is the most universal and the least appreciated law of revenue assessment and collection. Although the farm industry cannot dispose of its production by the addition of taxes, yet it cannot escape the burden above outlined. Neither can consumers in 300 acres-maybe more-in canta- other classes. Broadly speaking, loupes this season and will plant uni- therefore, it is apparent that all taxform seed and follow growing in- es sooner or later are borne and

A principle so plain and in such constant operation should be appreciated by everybody. Yet, scarcely one entertains the idea that he pays only those taxes which are directly assessconstitute an insignificant part of en goods factory in all of Texas, the whole. His groceries, clothing, every necessity he requires comes to him heavily burdened with these The Cuero Record says that plans taxes. The average man who is least

thing of equal value. able to be so is, therefore, the real

Turkey Trot celebrations a few years millions in appropriations for what

is called "support of the govern-ment" and additional millions for "remeasures, it places the whole burden upon the consumer. Yet it is the consumer who is loudest in his demands for these expenditures. Not until this self-evident fact is appreciated and taken to heart can we hope to affect those economies without which our tax rate goes marching on.—Selected.

The stockyards receive thousands of hogs each year that have died in transit or that are more or less crippled owing to improper handling before or during shipment, says the U. S. Department of Agriculture. Let the hogs get rested before loading fast, or load too many on a truck or wagon. Never prod, kick, or excite the animals. Keep them in a comfortable, roomy pen and feed light use loading chutes that are too steep. A chute 20 feet long provides a gradual rise to an ordinary farm wagon. The sides of the chute should be protected so the hogs can not fall off. See that the cars are free from share pieces of broken timber, nails, mud

or rubbish. Bedding should be privided. Crowding too many hogs a car may result in some of them dying in transit. Midwinter or early spring-depending on latitude-is the best time

to wage war against the cattle grub. Examine cattle for the grubs, of warbles, in the form of lumps on the skin, especially along the back If you find them, squeeze them out and destroy them. Don't crush them. Grubs may also be destroyed by the use of the drug Derris, as a wash ointment or powder; by pyrethrum ointment; by the injection of benzol or carbon tetrachloride; or by the application of fine tobacco powder them on cars. Don't drive them too or nicotine dust. Get your neighbors to destroy grubs on their herds, so your cattle will not be reinfested. Farmers' Bulletin 1596-F, Cattle Grubs or Heel Flies with Suggestions rations just before shipping. Don't for Their Control, may be obtained by writing the U. S. Department of Agriculture, Washington, D. C.

MRS. H. B. PALMER DIES.

This community was shocked and grieved at the passing last week of Mrs. H. B. Palmer, after only a few days of illness. Mrs. H. B. Palmer (Rena Fay Key), was born October 26, 1893, at Rising Star, Commanche County, Texas. When she was eight years of age, the family moved to Colorado, Texas. Her father, Chas. G. Key was one of the pioneers of diversified farming in that region. At the age of twelve she joined the Bantist Church at Buford, Texas. attended the public schools of Buford and Colorado, Texas.

On September 25, 1916, she was married at Buford, Texas, to H. B. Palmer, and joined the Methodist Church, in order to be in the same church with her husband. To Mr and Mrs. Palmer were born five children: Key Will, age 13 years; Grace Hondo will play Del Rio here Fri- Mildred, 12; Henry B., Jr., deceased

> The family moved to Lubbock in 1925, where Mr. Palmer served the South Plains Council of Boy Scouts Texas Council with headquarters at Uvalde. They have resided here since that date. Mrs. Palmer died at 3:30

Active pallbearers were Andrew where ten thousand times ten thou-Smyth, O. C. There shall be tion to Scouting through the sacri a resurrection for us as real, as vicfices she made that her husband torious, as eternal as the resurrection might give all his time and energy to of Him who said, "I am the resurrec bers of the community to attend and other boys.

Mrs. Palmer is survived by her mother, Mrs. C. G. Key, who is at the Palmer home for a time, and by five brothers and two sisters, all of whom except two were present at the funeral service.

Mrs. Palmer was an active and faithful member of the Methodist Church at Uvalde. All her time was given to her family and her church. She belonged to the Missionary Society, the Mothers' Class and the Mothers' Club of the Methodist Just behind the hanging curtain,

The funeral service was conducted at the Methodist Church Thursday Shall I doubt my Father's mercy? afternoon, March 19, by the Pasto of the Church and the Presidin Elder of the Uvalde District, assisted at the cemetery by the Boy Scouts Scores of floral offerings testified the esteem of the many friends o the family.

At the church, her pastor spoke in part as follows: "Life's greates nonor is to have been born a woman

in the yard.

I got off the train at Salident, Mississippi. The town was swampy, mosquitoly, and snakely. "Surely," I thought, "no human lives here."

Just at that moment, to my surprise, I saw a man who was a picture of perfect health coming toward me. This man must be a visitor, thought I. I determined to find out.

"Howdy," I said.

"Fine day isn't it?" "Yeah, if you like the type, visitor here?"

"No. I live here."

"Live here, in this unhealthy

"Unhealthy? Say when I came here, I couldn't walk, I had no hair, no teeth, a very weak appetite, and I was so weak I couldn't talk."

"Gee, I must be mistaken, you certainly improved."

"Yes, I did, I was born here.
